 - The separated dry and wet garbage and dried up bushes have been removed with the help of Municipality.
 - There is no permission for the entry of outsider's vehicles into the college campus.
 - Separate parking place is allotted for vehicles in the college premises.

CRITERIA- VII INNOVATION AND BEST PRACTICES

1. Environmental consciousness

Plantation:

Throughout the year plantation is done under the banner of N.S.S in the College Campus.

*N.S.S volunteers conduct clean and green programmes regularly to maintain cleanliness on the campus.

*The practice of presenting saplings to the guests and requesting them to plant them is implemented.

Innovations :

*The vehicle free day.

*Plastic free campus.

*Through J.K.C, skills are improved to our students

*students study projects are encouraged.

Vehicle free day

Vehicle free day conducts last Wednesday of Every Month

Goal:

Air pollution is one of the major problems today ,especially in cities where the cluster of industries and the ever increasing number of motor vehicles by there carbon emissions contributes to it significantly . Both plant and animal kingdoms are affected by air pollutions and a severe damage is caused to the ecosystem by the pollutants, which also has undesirable effect on the population. The depletion of the ozone layer causes global warming that affects all the living organisms . The goal of this practice is creating awareness among the students and the public about the imminent dangers and hazards the earth has to face if corrective measures are not take into control air pollution.

The context:

carbon dioxide and Carbon monoxide gases released into the atmosphere through vehicular exhaust are the primary air pollutants. a high level of this gases in the atmosphere cause respiratory problems like bronchitis, asthma and respiratory distress that may lead to the death of the infants and the world according to an observation of the world health organization, India has the highest death rate due to air pollution, mainly in the form of respiratory related complications. New delhi is the case point with its highest air pollutions levels in the world.

In this context it is necessary that the college should adopt a practice that is not only educative but also contributes to the public cause. Reducing air pollution can be achieved to some extent by avoiding vehicular emission into the atmosphere. However, It is not possible to continuously or permanently avoid the use of motor vehicles today .but a day in the month can be made vehicle free. Both staff and students can use public transport, and if necessary, walk a little bit or use bicycles. So the college has earmarked the monthly last wednesday vehicle free day.

The practices:

The practice is simple even staff members and students are not allowed to come to the college of his /her motor vehicle on the last Wednesday of every month . The staff and the students can use public transport or make some of their arrangements .But no personal motor vehicles are not used. College gate will not be opened on that day to allow any motor vehicle inside. However some exceptions are allowed on health or other grounds ,But not as a rule. For example, If any examination falls on that day, students and staff who have examination duty will have the option of either following the practice or not on that particular day. similarly, if any official visit or programme is scheduled for that day, the practice may not be followed. As the college decided to implement this practice once in a month only, there were occasions when this practice could not be implemented. Increasing the frequency of the practice through discourse in the staff meeting, has not decided upon.

Evidence of success :

Though in the beginning, out of habit, students and staff failed to follow this practice, still the regular announcements, circulars and reminders helped them in remembering monthly last Wednesday as a special day and slowly the percentage who followed this practice started to increase. The number of vehicles parked outside the college gate on the last Wednesday to decreased, and lesser request are now made for exemption.

Problems encountered resources required :

The main problem polytechnic college also including in our compus. Sometimes their vehicles are also stopped at the gate. Old students, parents, friends of faculty etc. Coming to the college on every month last Wednesday are also aggrieved some time. Giving explanation to them appease them.

Plastic free campus

Every month third Saturday plastic free day will be conducted by students and staff also.

Goals:

*The goal of this practice is to clean the campus and make the students to participate Swachh hi seva.

*TO link students with the practice free day programme in order to generate awareness on usage and plastic and say “no” to plastic produce bags.

The context:

Most of the students use plastic shopping bags and other plastic items in their daily life . They throw away plastic in the college campus .The college campus is filled with used plastic.

The practice:

The saff council identified the plastic problem in the college campus.It was decided to conduct to plastic free day.Students were asked not to bring any plastic bags to the college.Students were instructed and guided by the staff to clean the college premises.Students and staff actively participated in plastic free day on every month third saturday.Due to this programme plastic material was collected and college atmosphere was changed .Now the college atmosphere is neat and tidy.

Evidence Of Success:

*Students say “no” to plastic produce bags.

*Students and staff also carry reuseful bags.

*Students use dustbins instead of throwing the waste material on the floor.

Problems Encountered Resources Required:

Shop sellers are selling extensively in the town as well as in front of the college campus. staff and students are mostly used only cotton bags.

Best practices :

- * Swachh bharat: To keep the campus clean and hygiene
- * Janmabhoomi mavuru : All staff members and students are voluntarily participated in this program as the call given by AP government .
- * Blood donation camp : Though the college NSS team and NSS volunteers conducted this program interested staff and students also participated in this program.

Swachh bharat

GOAL: _

To keep the campus clean and hygiene.

The context :

As the call given by the government of India for swachh bharat programme, it is the one of the best practice of all of us.

The practice:

Every month one day we need to conduct the programme swachh bharat practice. All departments students participated in this programme.

Evidence Of Success:

Students and staff voluntarily participated in this practice as they believed that cleaning premises of the college is like cleaning their houses .

Problems encountered resources required :

College established in town area outskirts. Walkers also come to the college and no watchman in the college.College needs attention Vigilance.
